This place is amazing!! The manager Jennifer is excellent and goes above and beyond to help. The park is huge and offers so much as a nature lover it's always beautiful and very well maintained. Jennifer is eager to help and make sure her quest and the park are taken care of. We travel all over America for work and hands down this is one of the best parks we've visited. It's getting harder and harder to find spacious spots that are surrounded by trees and what a camper is looking for. Customer service and hospitality can be even harder in some states but here at Croton, Jennifer and staff make us feel as if we've stayed here a million times and never made us feel like an inconvenience for any questions. I highly recommend this park and standing ovation for management!!
