

theewpf

theewpf Yesterday, 44 volunteers from Morgan Stanley came to Muscoot Farm and demonstrated how much can be accomplished with a hard working group of volunteers. They built 7 raised garden beds, filling them with mulch and planting vegetables and seeds, and weeded and tilled existing gardens. They also cleared an impressive 2,000 square feet of invasive vines and shrubs that had been encroaching on the garden fence! Check out the before and after shots to see how much area has been cleared for the farm to utilize. Thank you to our great volunteers for a day well spent. #msgivesback
