

Westchester County Department of Parks & Recreation Conservation

Facility: Croton Point Park

Work Order # CPP-7-31-2022

Section: Cabin Bathroom Floor and Back Door

Budget Code: 42-4100

Description of Work:

The men's and women's floor at the cabin bathroom is in need of repair. The tile floor around the shower area is crack and rising. When you stand in front of the shower area its feel like you are going to fall through its very soft. We have been getting complaints from patrons that water stands and don't reach the drain nearby. Also the back door were the hot water heater is located is in need of replacement. I have attached photos to this email.
